

LOCHANA KAVINDA

ABOUT ME

I am an undergraduate student pursuing a Bachelor of Science (Hons) in Information Technology. I am eager to use what I have learned in a professional setting. I take responsibility seriously, enjoy tackling challenging projects and am fully committed to collaborating effectively and achieving success in organizational environments.

A software engineer, full stack and web developer with a first class BSc (Hons) degree in Computer Science (Software Engineering) from Kingston University (UK) and hands on experience in web, mobile, app and desktop application development.

Experience in SpringBoot, WordPress, Portfolio, MERN, Laravel with PHP, Flutter with Dart, React.js, Next.js, Nest.js, Express.js, Node.js, JS, Python, C, Vue.js, React Native, Firebase, Supabase, MySQL, NoSQL, PostgreSQL, SQLite, Xampp, Wamp, SQL Server and MongoDB. Also experienced in building RESTful APIs, Fast APIs, deploying cloud-based solutions (AWS, GCP, Vercel, Azure) and applying Agile/Scrum methodologies. Proven ability to design scalable, secure and user friendly software systems through open source, freelance and academic projects.

Finally, I hope to improve my knowledge and develop my software engineering skills and professionalism.
